

COMMUNITY OUTREACH

We are proud supporters of the **Concussion Legacy Foundation of Canada**.

Their mission:
to advance the study, treatment, and prevention of the effects of brain trauma and associated mental health implications in Canadian athletes, military personnel, youth, and other at-risk groups.

Donations are accepted any time

Newsletter – Fall 2025

FOCUS ON CANADA

Canadian nationalism and pride is surging. The trade pressures from our southern neighbour are inspiring us to vote with our wallets and support Canadian brands and products in the buy local movement.

This movement is reminding us of what it means to be Canadian. We have a lot to be proud of in this beautiful country including our natural resources, free healthcare, cultural diversity, and hockey.

At TT Actuarial, we are reminded of the many financial benefits the Canadian government offers in terms of retirement savings:

- Canada Pension Plan and Old Age Security offer all eligible Canadians a level of financial security in retirement;
- tax incentives exist for private companies to provide pension plans for their employees; and
- personal tax-deferred retirement savings are readily available as Registered Retirement Savings Plans and Tax-Free Savings Accounts.

PROUDLY CANADIAN

We here at TT Actuarial are proudly Canadian owned and operated. The TTA founding principals envisioned providing excellent value to the Canadian pension market. They understood that a smaller, privately-owned, local firm can be more nimble and responsive to changing markets and client needs without the additional management oversight of a larger, publicly-traded firm, where top management has to balance many priorities and is often out-of-country.

TTA, and its predecessor firm, has been serving Canadian pension needs with high quality service based out of Toronto since 1994.

TT ACTUARIAL PLAYS HOCKEY

Did you know that we have an ice hockey team? The team is comprised of employees, family members, independent investment advisors, and friends and plays two seasons a year: fall/winter and summer. The team has been going strong since 2018 and this past season were proud to make it to the finals, despite losing 2-1 in overtime.
